SYDNEY, Nov 30, 2009 (Dow Jones Commodities News via Comtex) -- [FXRSF](#) | [Quote](#) | [Chart](#) | [News](#) | [PowerRating](#) -- Fox Resources Ltd. (FXR.AU) said Tuesday it will restart copper and nickel output at its Radio Hill mine in Western Australia state, after curtailing production due to plummeting metal prices in August last year.

The Perth-based miner will use a low-cost heap leach production process, and aims to commission the mine during the second half of next year, with a minimum five-year mine life.

In September 2009, Fox raised the total mineral resources at Radio Hill four-fold to 4.02 million metric tons at 0.51% nickel and 0.89% copper.
